

Type: Digital Weight Indicator for Portable Pad Weighing System

Features: High accuracy and high speed
User friendly and simple operating
High speed thermal printer
Internal memory
Computer communication port
Wide screen display
Axle weight and wheel weight mode
Static or dynamic calibration

Application: Vehicle/Truck Weighing
Airplane Weighing
Center of gravity measurement

Specifications:

Maximum Load	Pad Load cell	1,2
Communication Port	Serial	RS232
Printer Type		SPRM
Printer Speed	Line/s	5
Printing Rate	mm/s	26 ~ 65
Printing Items		Vehicle No. / Axles or Wheels Weight / Total Weight
Memory Capacity	Filds	1000
Display Type		LED Dot-matrix
A/D Speed	Time/s	3000
Divisions	kg	10,50
Accuracy	%FS	3.0
Maximum Vehicle Speed	km/h	10
Temperature, Operating	°C	-5 ~ +50
Humidity, Operating	%	<90
Power Supply	VDC	12
